

## Irish Wolfhound Association of the Garden State – Speciality 2016 Critique

I would like to thank the officers and committee of The Irish Wolfhound Association of the Garden State for your kind invitation to judge “The Veteran Speciality”. It was an honour and a privilege to be asked! I would also like to thank the show committee on running a well organised show despite the weather’s best attempt to hamper the proceedings. Gratitude also to my two very knowledgeable chief ring stewards, Mark and Linda for all of their help and efficiency in keeping everything moving in an organised manner – they made my job so much easier.

I found the breed over all in a good state with lots of quality hounds of the correct breed type. Heads and expressions were generally good although many had light eyes and, sadly, rose ears were not much in evidence. However, eyes and ears are only part of the frosting on the cake. Size, bone and substance, was good, with no short legged or chocolate box types on display.

Movement was in general good and much of my notes mention “strong” and “powerful” over and over which is a good indicator of well-constructed hounds. Fronts were a slight problem as they are the world over! Most had decent shoulders but a lot of straight or short and straight upper arms. There were also quite a number of exhibits weak in wrists, which is not what we want for a galloping breed.

The biggest problem I found judging was mouths! I was shocked at the amount of bad mouths present in the entry. I can forgive a slight mouth fault but, between worn down teeth in both adults and youngsters, to bad bites, dropped AND or crooked teeth and in some cases, a wry mouth like a pig! Sadly, I estimate that about 75% of the entry had mouth faults of varying degrees from slight to severe. Please be aware that it will be hard to fix this problem. Lastly temperaments were wonderful!

I was truly pleased with my BOB and BOS and thought they complimented each other beautifully as wonderful representatives of our beloved breed. My Select Dog and Select Bitch along with the three awards of merit also exemplified true breed type and quality. I was proud of them all. Finally, I would like to thank you all for your good sportsmanship and allowing me the opportunity to assess your hounds.

Pauric Hand, Judge.

#### 3<sup>rd</sup> No 9. Sovngarde Dire Wolf.

### 2<sup>nd</sup>. No 57. Can. CH. Blackwing's Starkeeper Tegann.

Big, strong orange brindle with a lovely masculine head and soft expression.
